PRE-EMPLOYMENT SCREENING PROGRAM (PSP)

WHAT IS PSP?

- PSP allows employers of commercial drivers to access drivers' 5-year crash and 3-year inspection histories during the pre-hire process
- PSP is used by many of the largest transportation companies
- PSP records contain data from the FMCSA Motor Carrier Management Information System (MCMIS) database

HOW DOES PSP WORK?

- Your company may request driver records on behalf of your transportation clients using any major web browser or automated web service
- Provide a record to your clients immediately
- Help your clients hire the safest drivers
- PSP records cost \$10 and you will be invoiced each month
