

# Background Screening News

Break out the tin! Triton Canada is excited to celebrate our 10th anniversary on March 10, 2020.

Ten years ago, in 2010, Triton's founders saw that there was a gap in the pre-employment screening industry. They were working for Fortune 500 companies, such as Walmart, Rexall, and Coca-Cola, and using other screening providers.

However, they experienced huge delays in turnaround times and poor customer services. They knew that they could start their own company and solve all these issues. Hence, Triton Canada was born!

See the milestones of the past ten years on our blog:
