

fresher.
smarter.
better.

Are you ready to see your data
provider through a new lens?

VITAL⁴
TRACE

The newest SSN trace solution features more relevant information and less duplicates. Sourced from major bureaus and the largest alternative and consumer files, we have a higher hit rate than any other provider.

We apply our proprietary name-matching algorithms and machine learning to identify and rank records which will better match aliases, address history, and other key information.

Let us prove it to you.
